

The performance data shown represents past performance of the Portfolios and is not a guarantee of the future performance of the Portfolios. Current performance may be higher or lower than the performance presented here. The investment return and the value of the investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. Please visit www.nextgenforme.com for most recent month-end performance updates. The returns shown reflect total return for the period ending December 31, 2018, after giving effect to the Management, Portfolio Servicing, and Maine Administration Fees, as applicable, as well as fees and expenses of the Underlying Funds. The allocation of the Portfolios is subject to revision at any time by the Finance Authority of Maine (FAME). Investment return will fluctuate with market conditions. Effective September 18, 2017, performance data shown "with sales charge" reflects the maximum initial sales charge of 3.25% on all Portfolios except the NextGen Savings Portfolio and the Principal Plus Portfolio. An initial sales charge is not applied to the NextGen Savings Portfolio or the Principal Plus Portfolio.

(1) The return of the NextGen Savings Portfolio is based on the interest rate paid by Bank of America, N.A. (the "Bank") on the deposits of the NextGen Savings Portfolio, which will vary over time at the Bank's discretion without notice. The Program Manager and FAME do not currently charge any fees for the NextGen Savings Portfolio, but reserve the right to do so in the future. Any such fees would reduce the return shown for the NextGen Savings Portfolio.

(2) Although the Principal Plus Portfolio is currently invested entirely in the New York Life guaranteed interest account (GIA), the Principal Plus Portfolio's investments have changed over time. At various times since its inception, the Principal Plus Portfolio has been invested in a guaranteed investment contract (GIC), the Cash Allocation Account, and the Bank Deposit Account. The historical performance of the Principal Plus Portfolio has been affected by each of these investments. Please see the Program Description and any supplements for more information. The Program Manager provides administrative services with respect to the Principal Plus Portfolio and performs credit analyses on the issuers of GICs and GIAs. New York Life has issued the GIA and guarantees principal allocated to the GIA, accumulated interest and its future interest rates. New York Life's commitment to the GIA is based solely on its ability to pay its obligation from its general account. The commitment to the GIA is not secured by any collateral.

Total returns shown reflect any waiver or reimbursement of part of any Underlying Fund's expenses during the periods shown, without which returns shown would have been lower.

* Since inception returns for periods of less than one year are not annualized. Please note that there are limitations when viewing short-term performance results in portfolios with less than one year of performance. This short-term performance may not be achieved over longer time periods. The gross expense ratio for a Portfolio with less than one year of performance is based on estimated amounts for the Portfolio's current fiscal year.

The performance data shown represents past performance of the Portfolios and is not a guarantee of the future performance of the Portfolios. Current performance may be higher or lower than the performance presented here. The investment return and the value of the investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. Please visit www.nextgenforme.com for most recent month-end performance updates. The returns shown reflect total return for the period ending December 31, 2018, after giving effect to the Management, Portfolio Servicing, and Maine Administration Fees, as applicable, as well as fees and expenses of the Underlying Funds. The allocation of the Portfolios is subject to revision at any time by the Finance Authority of Maine (FAME). Investment return will fluctuate with market conditions. Performance data shown "with sales charge" reflects a contingent deferred sales charge (CDSC) of 1.00% on all Portfolios in the first year after purchase, except in the Principal Plus Portfolio and the NextGen Savings Portfolio. A CDSC does not apply to the NextGen Savings Portfolio or the Principal Plus Portfolio.

(1) Effective September 18, 2017, any C Unit Class Portfolios are automatically converted into A Unit Class Portfolios (not subject to an Initial Sales Charge) after five years from the initial date of purchase.

(2) The return of the NextGen Savings Portfolio is based on the interest rate paid by Bank of America, N.A. (the "Bank") on the deposits of the NextGen Savings Portfolio, which will vary over time at the Bank's discretion without notice. The Program Manager and FAME do not currently charge any fees for the NextGen Savings Portfolio, but reserve the right to do so in the future. Any such fees would reduce the return shown for the NextGen Savings Portfolio.

(3) Although the Principal Plus Portfolio is currently invested entirely in the New York Life guaranteed interest account (GIA), the Principal Plus Portfolio's investments have changed over time. At various times since its inception, the Principal Plus Portfolio has been invested in a guaranteed investment contract (GIC), the Cash Allocation Account, and the Bank Deposit Account. The historical performance of the Principal Plus Portfolio has been affected by each of these investments. Please see the Program Description and any supplements for more information. The Program Manager provides administrative services with respect to the Principal Plus Portfolio and performs credit analyses on the issuers of GICs and GIAs. New York Life has issued the GIA and guarantees principal allocated to the GIA, accumulated interest and its future interest rates. New York Life's commitment to the GIA is based solely on its ability to pay its obligation from its general account. The commitment to the GIA is not secured by any collateral.

Total returns shown reflect any waiver or reimbursement of part of any Underlying Fund's expenses during the periods shown, without which returns shown would have been lower.

* Since inception returns for periods of less than one year are not annualized. Please note that there are limitations when viewing short-term performance results in portfolios with less than one year of performance. This short-term performance may not be achieved over longer time periods. The gross expense ratio for a Portfolio with less than one year of performance is based on estimated amounts for the Portfolio's current fiscal year.
